Thank You for Your Payment

Your payment has been received.

Thank you for purchasing Menucool JavaScript Image Slider (MC25).

The Slider license for your website www.3woodstock.gr is: b2w17

You can get the source code from the demos that you can download from http://www.menucool.com/javascript-image-slider

Open the slider's JavaScript file with Notepad, and update the license property as:
{ ......
license: "b2w17"
};

- The license is issued on a per-domain basis (valid for your domain as well as all its sub-domains across the site). It will disable the purchase reminder when the slider is running under the domain;
- You can set the license to "b6t80" to disable the purchase reminder if running locally(e.g. file:///D:/jsImgSlider /demo6.html) or using the localhost server(e.g. http://localhost:8888/demo6.html)
- The Slider's JavaScript will use its own match pattern code to verify the license with the domain name on the browser's address bar. No other services will be involved for the verification;
- The license entitles you to use any Menucool sliders (JavaScript Image Slider, Zoom Slider, jQuery Slider, Content Slider, etc) except the Ninja Slider;
- The license is valid forever for future upgrades/releases with no requirement to renew.
- Your browser may have cached the JavaScript file that is before the license update. Please refresh the page if you are still getting the purchase reminder.
- Troubleshooting: http://www.menucool.com/2457/Troubleshooting-Request

We've also sent you an email with the license information. If you cannot find it in your ttstroh@yahoo.gr, please also check the junk folder.
